Independent Auditor's Report

To
The Members of
Sterlite Power Transmission Limited

REPORT ON THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

OPINION

We have audited the accompanying standalone financial statements of Sterlite Power Transmission Limited ("the Company"), which comprise the Balance sheet as at March 31 2022, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

OTHER INFORMATION

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

The Annual report is not made available to us as at the date of this auditor's report. We have nothing to report in this regard.

RESPONSIBILITY OF MANAGEMENT FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.

2. As required by Section 143(3) of the Act, we report that:

    (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

    (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

    (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;

    (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;

    (e) On the basis of the written representations received from the directors as on March 31, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164 (2) of the Act;

    (f) With respect to the adequacy of the internal financial controls with reference to these standalone financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;

    (g) In our opinion, the managerial remuneration for the year ended March 31, 2022 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;

    (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

        i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note 37 to the standalone financial statements;

ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer Note 8 and Note 17 to the standalone financial statements;

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

iv (a) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the note 51A to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(c) Based on such audit procedures that were considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

v. The interim dividend declared and paid by the Company during the year and until the date of this audit report is in accordance with section 123 of the Act.

Annexure 1 referred to in paragraph 1 under the heading "Report on Other Legal and Regulatory Requirements" of our report of even date

Re: Sterlite Power Transmission Limited (the "Company")

In terms of the information and explanations sought by us and given by the company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

(i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.

(a) (B) The Company has maintained proper records showing full particulars of intangibles assets.

(b) All property, plant and equipment have not been physically verified by the management during the year but there is a regular programme of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.

(c) The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) are held in the name of the Company.

(d) The Company has not revalued its Property, Plant and Equipment (including Right of use assets) or intangible assets during the year ended March 31, 2022 since the Company follows cost model for measurement after recognition of Property, Plant and Equipment and intangible assets.

(e) There are no proceedings initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

(ii) (a) The inventory has been physically verified by the management during the year except for inventories lying with third parties. In our opinion, the frequency of verification by the management is reasonable and the coverage and procedure for such verification is appropriate. Inventories lying with third parties have been confirmed by them as at March 31, 2022 and discrepancies of 10% or more in aggregate for each class of inventory were not noticed in respect of such confirmations. Discrepancies of 10% or more in aggregate for each class of inventory, were not noted on physical verification of inventories.

(ii) (b) The Company has been sanctioned working capital limits in excess of ₹ five crores in aggregate from banks during the year on the basis of security of current assets of the Company. The quarterly returns/statements filed by the Company with such banks for the financial year ended March 31, 2022 are in agreement with the books of accounts of the Company, the details of which are disclosed in Note 51B to the financial statements.

(iii) (a) During the year the Company has provided loans to parties as follows:

(₹ in million)

	Guarantees	Security	Loans	Advances in nature of loans
Aggregate amount granted/ provided during the year				
- Subsidiaries	-	-	1,182.28	-
- Joint Ventures	-	-	3,114.03	-
- Associates	-	-	-	-
- Other companies	-	-	35.00	-
Balance outstanding as at balance sheet date in respect of above cases				
- Subsidiaries	-	-	5,995.00	-
- Joint Ventures	-	-	6,016.53	-
- Associates	-	-	-	-
- Other companies	-	-	35.52	-

(iii) (b) During the year the investments made and conditions of the grant of all loans and advances in the nature of loans to companies are not prejudicial to the Company's interest. During the year, the Company has not provided guarantees and given security to companies.

Further, during the year the Company has not made investments, provided guarantees, provided security and granted loans and advances in the nature of loans to firms, Limited Liability Partnerships or any other parties.

(iii) (c) The Company has granted loan(s) and / or advance in the nature of loans during the year to companies where the schedule of repayment of principal and payment of interest has been stipulated and the repayment or receipts are regular.

During the year, the Company has not granted loan(s) and / or advance in the nature of loans to firms, Limited Liability Partnerships or any other parties.

(iii) (d) There are no amounts of loans and advances in the nature of loans granted to companies, firms, limited liability partnerships or any other parties which are overdue for more than ninety days.

(iii) (e) There were no loans or advance in the nature of loan granted to companies, firms, Limited Liability Partnerships or any other parties which have fallen due during the year, that have been renewed or extended or fresh loans granted to settle the overdues of existing loans given to the same parties.

(iii) (f) As disclosed in note 6 to the financial statements, during the year, the Company has granted loans which are repayable on demand to companies which are related parties ('wholly owned subsidiaries') as defined in clause (76) of section 2 of the Companies Act, 2013. None of these loans are granted to promoters.

	Wholly owned subsidiaries (₹ million)
Aggregate amount of loans/ advances in nature of loans	
- Repayable on demand	538.07
Percentage of loans/ advances in nature of loans to the total loans	44.20%

During the year, the Company has not granted loans or advances in the nature of loans, either repayable on demand or without specifying any terms or period of repayment to firms, Limited Liability Partnerships or any other parties.

(iv) Loans, investments, guarantees and security in respect of which provisions of sections 185 and 186 of the Companies Act, 2013 are applicable have been complied with by the Company.

(v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the Companies Act and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.

(vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, related to the manufacture of power conductors, power cables and engineering procurement and construction services and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.

(vii) (a) The Company is regular in depositing with appropriate authorities undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, duty of customs, cess and other statutory dues applicable to it. According to the information and explanations given to us and based on audit procedures performed by us, no undisputed amounts payable in respect of these statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

(b) The dues of income-tax, sales-tax, service tax, duty of custom, duty of excise, value added tax, cess, and other statutory dues have not been deposited on account of any dispute, are as follows:

Name of Statute	Nature of Dues	Amount ₹ Million	Period to which the amount relates	Forum at which dispute is pending
Central Excise Act 1944	Excise Duty	73.56	FY 01-02	Bombay High Court
Madhya Pradesh VAT Act, 2002	Value Added Tax	19.08	FY 15-16	Additional Commissioner Appeal, Bhopal
West Bengal VAT Act, 2003	Value Added Tax	6.10	FY 14-15 & 15-16	Jt. Commissioner Appeal, Medinipur, West Bengal
Orissa Value Added Tax Act, 2004	Value Added Tax	46.89	FY 14-15,15-16, 16-17 & 17-18	The Additional Commissioner of Sales Tax (Appeal), North Zone, Sambalpur
Delhi VAT Act, 2004	Value Added Tax	27.64	FY 14-15	Assistant Commissioner, Delhi VAT
Dadra & Nagar Haveli Value Added Tax Act,2005	Value Added Tax	30.18	FY 16-17	Deputy Commissioner (VAT), Dadra & Nagar Haveli, Silvassa

(viii) The Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year. Accordingly, the requirement to report on clause 3(viii) of the Order is not applicable to the Company.

(ix) (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.

(ix) (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

(ix) (c) Term loans were applied for the purpose for which the loans were obtained.

(ix) (d) On an overall examination of the financial statements of the Company, no funds raised on short-term basis have been used for long-term purposes by the Company.

(ix) (e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.

(ix) (f) The Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies. Hence, the requirement to report on clause (ix)(f) of the Order is not applicable to the Company.

(x) (a) The Company has not raised any money during the year by way of initial public offer / further public offer (including debt instruments), hence the requirement to report on clause 3(x)(a) of the Order is not applicable to the Company.

(x) (b) The Company has not made any preferential allotment or private placement of shares /fully or partially or optionally convertible debentures during the year under audit and hence, the requirement to report on clause 3(x)(b) of the Order is not applicable to the Company.

(xi) (a) No fraud by the Company or no fraud on the Company has been noticed or reported during the year.

(xi) (b) During the year, no report under sub-section (12) of section 143 of the Companies Act, 2013 has been filed by cost auditor/ secretarial auditor or by us in Form ADT – 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.

(xi) (c) We have taken into consideration the whistle blower complaints received by the Company during the year while determining the nature, timing and extent of audit procedures.

(xii) The Company is not a Nidhi Company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii)(a), (b) and (c) of the Order is not applicable to the Company.

(xiii) Transactions with the related parties are in compliance with sections 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.

(xiv) (a) The Company has an internal audit system commensurate with the size and nature of its business.

(xiv) (b) The internal audit reports of the Company issued till the date of the audit report, for the period under audit have been considered by us.

(xv) The Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence requirement to report on clause 3(xv) of the Order is not applicable to the Company.

(xvi) (a) The provisions of section 45-IA of the Reserve Bank of India Act, 1934 (2 of 1934) are not applicable to the Company. Accordingly, the requirement to report on clause (xvi)(a) of the Order is not applicable to the Company.

(xvi) (b) The Company is not engaged in any Non-Banking Financial or Housing Finance activities. Accordingly, the requirement to report on clause (xvi)(b) of the Order is not applicable to the Company.

(xvi) (c) The Company is not a Core Investment Company as defined in the regulations made by Reserve Bank of India. Accordingly, the requirement to report on clause 3(xvi)(c) of the Order is not applicable to the Company.

(xvi) (d) There is no Core Investment Company as a part of the Group, hence, the requirement to report on clause 3(xvi)(d) of the Order is not applicable to the Company.

(xvii) The Company has not incurred cash losses in the current year and in the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors during the year and accordingly requirement to report on Clause 3(xviii) of the Order is not applicable to the Company.

(xix) On the basis of the financial ratios disclosed in note 50 to the financial statements, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) (a) In respect of other than ongoing projects, there are no unspent amounts that are required to be transferred to a fund specified in Schedule VII of the Companies Act (the Act), in compliance with second proviso to sub section 5 of section 135 of the Act. This matter has been disclosed in note 29 to the financial statements.

(xx) (b) There are no unspent amounts in respect of ongoing projects, that are required to be transferred to a special account in compliance of provision of sub section (6) of section 135 of Companies Act. This matter has been disclosed in note 29 to the financial statements.

Annexure 2 to the Independent Auditor's Report of even date on the Standalone Ind AS Financials Statements of Sterlite Power Transmission Limited

REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")

We have audited the internal financial controls over financial reporting of Sterlite Power Transmission Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting with reference to these standalone financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING WITH REFERENCE TO THESE STANDALONE FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls over financial reporting with reference to these standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting with reference to these standalone financial statements and such internal financial controls over financial reporting with reference to these standalone financial statements were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

1. CORPORATE INFORMATION

Sterlite Power Transmission Limited (the Company) is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The registered office of the Company is located at 4th Floor, Godrej Millennium, Koregaon Park, Pune, Maharashtra, India.

The Company is primarily engaged in the business of Power products and solutions. Power products and solutions mainly include manufacturing of power transmission conductors, optical ground wire cables and power cable. It also includes execution of Engineering, Procurement and Construction Contracts for replacement of power transmission conductors, optical ground wire cables and power cable as a part of master system integration business.

The Company, directly or indirectly, through its subsidiaries, acts as a developer on Build Own Operate & Maintain ("BOOM") basis, for designing, financing, construction and maintenance of power transmission systems for concessional periods ranging from 25 to 35 years. The Company also undertakes the Engineering, Procurement and Construction Contracts for construction of power transmission systems.

The standalone financial Statements were authorised for issue in accordance with resolution passed by the Board of Directors of the 27 May 2022.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015, as amended, prescribed under Section 133 of the Companies Act, 2013 ("Ind AS") and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III).

The standalone financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value or revalued amount:

- Derivative financial instruments;
- Certain financial assets measured at fair value (refer accounting policy regarding financial instruments).

The standalone financial statements are presented in Indian Rupees millions, except when otherwise indicated.

2.2 Summary of significant accounting policies

The following is the summary of significant accounting policies applied by the Company in preparing its standalone financial statements:

a) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Operating cycle of the Company is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. As the Company's normal operating cycle is not clearly identifiable, it is assumed to be twelve months.

b) Foreign currencies

The Company's standalone financial statements are presented in INR, which is its functional currency.

Notes to Financial Statements

for the year ended March 31, 2022

(All amounts in ₹ million unless otherwise stated)

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company at their respective functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

c) **Fair value measurement**

The Company measures financial instruments such as derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the standalone Ind AS financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities;

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

External valuers are involved for valuation of significant assets such as investment in subsidiaries. Involvement of external valuers is decided by the management on a need basis and with relevant approvals. The valuers involved are selected based on criteria like market knowledge, reputation, independence and professional standards. The management decides after discussion with the external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the management analyses the movement of assets and liabilities which are required to be premeasured or reassessed as per the Company's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

The management in conjunction with external valuers also compares the change in fair value of each asset and liability with relevant external sources to determine whether the change is reasonable. The valuation results are discussed at the Audit Committee.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for valuation methods, significant estimates and assumptions (note 33,41, 42)
- Quantitative disclosures of fair value measurement hierarchy (note 42)
- Investment in Non-Convertible Debentures (note 41 and 42)
- Investment in Compulsorily Convertible Debentures (note 41 and 42)
- Investment in mutual funds (note 41 and 42)
- Financial instruments (note 41 and 42)

d) Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer. Amounts disclosed as revenue are net of goods and service tax (GST).

The disclosures of significant accounting judgements, estimates and assumptions relating to revenue from contracts with customers are provided in Note 33

Sale of power products and traded goods
Revenue from sale of power products and traded goods are recognised at a point of time upon delivery of conductor, power cable or traded aluminium ingots and rods and payment is generally due within 60 to 365 days from delivery. Some contracts provide the Company right to receive price variation from customers on account of changes in metal prices

Rendering of services
Revenues from services are recognised when the services are rendered. When the contract outcome cannot be measured reliably, revenue is recognised only to the extent that the expenses incurred are eligible to be recovered.

Revenue from Engineering, Procurement and Construction (EPC) projects
Revenue from fixed price construction contracts for power transmission lines and supply & installation of power transmission products is recognised as the performance obligation is satisfied progressively over the contract period. The Company's progress towards completion is measured based on the proportion that the contract expenses incurred to date bear to the estimated total contract expenses. Payment is due as per the achievement of contractual milestones.

The estimates of contract cost and the revenue thereon are reviewed periodically by management and the cumulative effect of any changes in estimates is recognised in the period in which such changes are determined. Where it is probable that the contract expenses will exceed total revenues from a contract, the expected loss is recognised immediately as an expense in the statement of profit and loss.

Where the profit from a contract cannot be estimated reliably, revenue is only recognised equalling the expenses incurred to the extent that it is probable that the expenses will be recovered.

Revenue from services rendered to joint ventures
Services rendered to joint ventures represent the performance obligation for providing various consultation and agency services in relation to joint venture entities which are satisfied at a point of time.

Contract modifications:
Contract modifications are defined as changes in the scope of the work, other than changes envisaged in the original contract, that may result in a change in the revenue associated with that contract. Modifications to approval before billings can be

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

issued and the amounts relating to the additional work can be collected. The Company does not recognise the revenue from such additional work until the customer's approval has been obtained. In cases where the additional work has been approved but the corresponding change in price has not been determined, the requirement described below for variable consideration is applied: namely, to recognise revenue for an amount with respect to which it is highly probable that a significant reversal will not occur. The costs associated with these additional units or services performed are recognised when incurred, irrespective of whether or not the modification has been approved.

Variable considerations:
If the consideration in a contract includes a variable amount, the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

Contract Balance
Contract Assets
A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade Receivable
A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section (q) Financial instruments – initial recognition and subsequent measurement.

Contract Liabilities
A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

e) Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual instalments. When loans or similar assistance are provided by governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a government grant. The loan or assistance is initially recognised and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

f) Taxes

Current income tax
Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to items recognised outside of profit or loss is recognised outside of profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside of profit or loss is recognised outside of profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable Company and the same taxation authority.

Goods and service tax paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the amount of goods and service tax paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the tax authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the tax authority is included as part of receivables or payables in the balance sheet.

g) Non-Current Assets held for sale

The Company classifies non-current assets and disposal groups as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

withdrawn. Management must be committed to the sale expected within one year from the date of classification.

For these purposes, sale transactions include exchanges of non-current assets for other non-current assets when the exchange has commercial substance. The criteria for held for sale classification is regarded met only when the assets or disposal group is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets (or disposal groups), its sale is highly probable; and it will genuinely be sold, not abandoned.

The Company treats sale of the asset or disposal group to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset (or disposal group),
- An active programme to locate a buyer and complete the plan has been initiated (if applicable),
- The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets held for sale to owners and disposal groups are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and liabilities classified as held for sale are presented separately in the balance sheet.

Property, plant and equipment and intangible assets once classified as held for sale to owners are not depreciated or amortised. Refer Note 10 for further disclosures.

- A disposal group qualifies as discontinued operation if it is a component of an entity that either has been disposed of, or is classified as held for sale, and:
- Represents a separate major line of business or geographical area of operations,
- Is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations.

h) Property, plant and equipment

Certain items of freehold land have been measured at fair value at the date of transition to Ind AS. The Company regards the fair value as deemed cost at the transition date, viz., April 01, 2015.

Capital work in progress, property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the property, plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit or loss as incurred. No decommissioning liabilities are expected or to be incurred on the assets of plant and equipment.

Expenditure directly relating to construction activity is capitalised. Indirect expenditure incurred during construction period is capitalised as part of the construction costs to the extent the expenditure can be attributable to construction activity or is incidental there to. Income earned during the construction period is deducted from the total of the indirect expenditure.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Asset Category	Useful Life considered	Useful life (Schedule II#)
Buildings (Factory/Office)	30/60 Years	30/60 Years
Plant and Machinery	2 - 20 Years *	Continuous process plant- 25 Years Others- 15 Years
Furniture and fixtures	3 - 10 Years *	10 Years
Data processing equipment	3 - 6 Years *	Service and networks- 6 Years and desktops and laptop etc - 3 Years
Office equipment	2 - 5 Years *	5 Years
Electric fittings	4 - 20 Years *	10 Years
Vehicles	3 - 5 Years *	8 Years
Leasehold improvements	Lease period	Lease period

* Considered on the basis of management's estimation, supported by technical advice, of the useful lives of the respective assets.

Residual value considered as 5% on the basis of management's estimation, supported by technical advice.

The Company, based on technical assessments made by technical experts and management estimates, depreciates the certain items of building, plant and machinery, data processing equipment, furniture and fixtures, office equipment, electric fittings, vehicles and other telecom networks equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

i) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and the expenditure is recognised in the Statement of Profit and Loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit or loss.

The Company does not have any intangible assets with indefinite useful lives.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

Software are amortised on a straight-line basis over a period of five to six years.

j) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

k) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

- Land – 99 years
- Office building – 1 to 5 years
- Vehicles – 3 to 5 years

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section (n) Impairment of non-financial assets.

ii) Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

The Company's lease liabilities are included in other financial liability (see Note 17).

iii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases and

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Company as lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

l) Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

Raw materials, components, construction material, stores and spares, packing materials and others: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average cost basis except for aluminium wherein the cost is determined on specific identification method based on the costing details of each project.

Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs. Cost is determined on weighted average cost basis except for aluminium conductors wherein the cost is determined on specific identification method based on the costing details of each project.

Traded goods: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

Initial cost of inventories includes the transfer of gains and losses on qualifying cash flow hedges, recognised in OCI, in respect of the purchases of raw materials.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

m) Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

Impairment losses of continuing operations, including impairment on inventories, impairment of Compulsorily Convertible Debentures and Non-Convertible Debentures are recognised in the statement of profit and loss, except for properties previously revalued with the revaluation surplus taken to OCI. For such properties, the impairment is recognised in OCI up to the amount of any previous revaluation surplus.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

n) Provisions

General

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

o) Retirement and other employee benefits

Retirement benefit in the form of provident fund and superannuation fund are defined contribution schemes. The Company has no obligation, other than the contribution payable to the provident fund and superannuation fund. The Company recognizes contribution payable to the provident fund and superannuation fund as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

The Company has a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

p) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

i. Debt instruments at amortised cost

ii. Debt instruments at fair value through other comprehensive income (FVTOCI)

iii. Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)

iv. Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit or loss. The losses arising from impairment are recognised in the statement of profit or loss. This category generally applies to trade and other receivables. For more information on receivables, refer to Note 7.

Debt instrument at FVTOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and

b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses and reversals and foreign exchange gain or loss in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit or loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Derecognition
A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's combined balance sheet) when:

- The rights to receive cash flows from the asset have expired, or

- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets
In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance;

b) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- Trade receivables or contract revenue receivables; and

- All lease receivables resulting from transactions within the scope of Ind AS 116

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument;

- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss. This amount is reflected under the head 'other expenses' in the statement of profit and loss. The balance sheet presentation for various financial instruments is described below:

- Financial assets measured as at amortised cost, contractual revenue receivables and lease receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

The Company does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Loans and borrowings

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

This category generally applies to borrowings. For more information refer Note 16A and Note 16B

Buyers' Credit/ Suppliers' Credit
The Company enters into arrangements whereby financial institutions make direct payments to suppliers for raw materials and project materials. The financial institutions are subsequently repaid by the Company at a later date providing working capital timing benefits. These are normally settled up within 12 months to 36 months. Where these arrangements are with a maturity of up to twelve months the economic substance of the transaction is determined to be operating in nature and these are recognised as operational buyers' credit/ suppliers' credit (under Trade payables). Interest expense on these are recognised in the finance cost.

Derecognition
A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Embedded derivatives
An embedded derivative is a component of a hybrid (combined) instrument that also includes a non-derivative host contract – with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand-alone derivative. An embedded derivative causes some or all of the cash flows that otherwise would be required by the contract to be modified according to a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss.

If the hybrid contract contains a host that is a financial asset within the scope of Ind AS 109, the Company does not separate embedded derivatives. Rather, it applies the classification requirements contained in Ind AS 109 to the entire hybrid contract. Derivatives embedded in all other host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at fair value though profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss, unless designated as effective hedging instruments.

Reclassification of financial assets
The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

The following table shows various reclassification and how they are accounted for:

Original classification	Revised Classification	Accounting Treatment
Amortised Cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in statement of profit and loss.
FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortised cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in OCI. No change in EIR due to reclassification.
FVTOCI	Amortised cost	Fair value at reclassification date becomes its new amortised cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortised cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognised in OCI is reclassified to statement of profit and loss at the reclassification date.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

q) Derivative financial instruments and hedge accounting

Initial recognition and subsequent measurement

The Company uses derivative financial instruments, such as forward currency contracts and commodity future contracts to hedge its foreign currency risks and commodity price risks, respectively. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

The purchase contracts that meet the definition of a derivative under Ind AS 109 are recognised in the statement of profit and loss. Commodity contracts that are entered into and continue to be held for the purpose of the receipt or delivery of a non-financial item in accordance with the Company's expected purchase, sale or usage requirements are held at cost.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in OCI and later reclassified to profit or loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

For the purpose of hedge accounting, hedges are classified as:

- Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment;
- Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment;
- Hedges of a net investment in a foreign operation.

At the inception of a hedge relationship, the Company formally designates and documents the hedge relationship to which the Company wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the Company's risk management objective and strategy for undertaking hedge, the hedging/ economic relationship, the

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Cash flow hedges that meet the strict criteria for hedge accounting are accounted for, as described below:

The effective portion of the gain or loss on the hedging instrument is recognised in OCI in the cash flow hedge reserve, while any ineffective portion is recognised immediately in the statement of profit and loss.

Amounts recognised as OCI are transferred to profit or loss when the hedged transaction affects profit or loss, such as when the hedged financial expense is recognised or when a forecast sale occurs. When the hedged item is the cost of a non-financial asset or non-financial liability, the amounts recognised as OCI are transferred to the initial carrying amount of the non-financial asset or liability.

If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when the hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss previously recognised in OCI remains separately in equity until the forecast transaction occurs or the foreign currency firm commitment is met.

r) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

s) Cash dividend distribution to equity holders of the Company

The Company recognises a liability to make cash distributions to equity holders of the Company when the distribution is authorised, and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

t) Presentation of EBITDA

The Company presents Earnings before interest, tax, depreciation and amortisation ('EBITDA') in the statement of profit or loss; this is not specifically required by Ind AS 1. The term EBITDA is not defined in Ind AS. Ind AS compliant Schedule III allows companies to present line items, sub-line items and sub-totals to be presented as an addition or substitution on the face of the financial statements when such presentation is relevant to an understanding of the company's financial position or performance.

Accordingly, the Company has elected to present EBITDA as a separate line item on the face of the statement of profit and loss. The Company measures EBITDA on the basis of profit/ (loss) from continuing operations. In its measurement, the Company does not include depreciation and amortization expense, finance income, finance costs and tax expense.

2.3 New and Amended standards

Several amendments apply for the first time in March 2022, but do not have an impact on the standalone financial statements of the Company.

- Interest Rate Benchmark Reform – Phase 2: Amendments to Ind AS 109, Ind AS 107, Ind AS 104 and Ind AS 116
- Ind AS 116: COVID-19 related rent concessions
- Ind AS 103: Business combination
- Amendment to Ind AS 105, Ind AS 16 and Ind AS 28

(a) The fair market value of the investment in Sterlite Grid 18 Limited ('SGL18') is below cost, hence the Company has recognised the impairment on compulsorily convertible debentures and non-convertible debentures.

(b) The Company has given interest free loans to wholly owned subsidiaries, amounting to ₹ 1,293.73 million repayable after 2-3 years. The loans being financial asset, have been discounted to present value amounting to ₹ 1,020.80 million at initial recognition. The balance of ₹ 272.90 million being the difference between present value and loan amount has been recognised as equity component.

(c) Pursuant to Share Purchase Agreement ("Agreement") dated 03 April 2021 executed among the Company's wholly owned subsidiary Sterlite Grid 5 Limited ('SGL5'), wholly owned subsidiary of SGL5 Goa- Tamnar Transmission Project Limited ("GTTPL") and wholly owned subsidiary of the Company Sterlite Grid 29 Limited ("SGL 29"), 100% equity shareholding of GTTPL held by the SGL 5 is transferred to SGL 29.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

(d) The Company has entered into a Framework Agreement with AMP Capital Infrastructure Investment No.2 S.A R.L. (‘AMP Capital’) dated 28 December 2020 (‘the Agreement’) for investment in the subsidiaries of the Company which are engaged in the business of developing, designing, financing, constructing and maintaining power transmission systems on a ‘build own operate and maintain’ basis in India. Pursuant to the agreement, AMP Capital has invested in 50% of the paid up equity share capital of Sterlite Grid 14 Limited (‘SGL14’), Sterlite Grid 18 Limited ('SGL 18') and Sterlite Grid 29 Limited ('SGL 29) on 06 April 2021. Accordingly, as per the terms of the agreement and rights available to the Company, investment in SGL14, SGL 18 and SGL 29 have been classified as investment in joint ventures.

(e) The Company entered into a Framework agreement with India Grid Trust for selling its entire stake in Khargone Transmission Limited, Gurgaon- Palwal Transmission Limited and NER-II Transmission Limited after these projects are commissioned, at values as agreed in the Framework agreement subject to certain adjustments and the requisite approvals. During the previous year, pursuant to the framework agreement, erstwhile Sterlite Grid 4 Limited, a wholly owned subsidiary of the Company, has sold 100% beneficial ownership in Gurgaon- Palwal Transmission Limited and 74% of beneficial ownership in NER-II Transmission Limited to India Grid Trust. During the current year, remaining 26% beneficial ownership in NER-II Transmission Limited has been transferred to India Grid Trust.

(f) Pursuant to Share purchase agreement ('SPA') dated 29 March 2022 executed between the Company, Sterlite Technologies Limited ('STL'), Maharashtra State Electricity Transmission Company Limited ('MSETCL') and Maharashtra Transmission Communication Infrastructure Limited ('MTCIL'), the Company has purchased 64.98% equity stake in MTCIL from STL for agreed consideration of ₹ 430.00 million. SPTL has paid advance consideration of ₹ 200.00 million and balance consideration of ₹ 230.00 million is payable in 2 tranches. First Tranche of ₹ 100.00 million is payable within a period 6 months from date of SPA and second tranche of ₹ 130.00 million is payable after 18 months from the date of SPA. Accordingly consideration payable after 18 months has been accounted at effective interest rate method ('EIR') at amortised cost. As a result, MTCIL became the subsidiary of the Company w.e.f. 31 March 2022.

** During the current year, the Company has given unsecured loan to Sterlite Power Technologies Private Limited (""SPTPL"") amounting to ₹ 35.52 million (March 31, 2021: Nil)(including accumulated interest accrued) carrying interest at the rate of 11% p.a. and is repayable within 1 year. In previous year, there was a loan receivable of ₹ 207.35 million (including accumulated interest) which was repayable on demand, and has been paid by SPTPL during the current year.*

^Loan also included loan given to Sterlite Technologies Limited (""STL"") amounting to ₹ Nil million (March 31, 2021: ₹ 95.21 million) carrying an interest rate of ₹ 10% p.a. and is repayable on demand. The loan has been repaid by STL during the current year.

 # Indian rupee loans to subsidiaries are repayable on demand and carry Nil rate of interest excluding loans specified in note 5B(b).

Compliance to the provisions of Section 186 of the Companies Act, 2013

The Company has given interest free loans amounting to its ₹ 538.07 million to wholly owned subsidiaries repayable on demand and the outstanding balance is of ₹ 5,716.40 million as at year end. Based on the legal opinion obtained by the management, the Company is engaged in construction of power transmission lines and manufacturing of power products and solutions hence it is considered as infrastructure company as per Schedule VI of the Companies Act, 2013 for the purpose of compliance with the section 186 of the Companies Act 2013. Accordingly, the provisions of section 186 (2) to section 186 (11) are not applicable to the Company.

NOTE 10: ASSETS AND LIABILITIES HELD FOR SALE

Pursuant to Ind AS - 105 ""Non Current Assets Held for Sale and Discontinued Operations"", the Company has identified non-current assets referred to in below notes as held for sale as the carrying amount of these assets will be recovered principally through a sale transaction rather than through continuing use. These assets are available for immediate sale in its present condition and the sale transactions are highly probable.

Following assets and liabilities are classified as held for sale as at 31 March 2022 and as at 31 March 2021:

(₹ in million)

	31 March 2022	31 March 2021

Investment in equity shares		
Khargone Transmission Limited [refer note 10(c)]		
1.56 million equity shares of ₹ 10 each fully paid up	101.35	
Total	**101.35**	**-**
Assets classified as held for sale - current	**101.35**	**1,352.66**

(a) **Sale of shares held in Indigrid Investment Managers Limited (formerly known as Sterlite Investment Managers Limited)**
Pursuant to “Share Subscription and Purchase Agreement” executed between Electron IM PTE. LTD ('EIMPT') and the Company on 30 April 2019, the Company had to sell 74% of its stake in its subsidiary IIML in two tranches starting from 30 June 2019 till 30 Jun 2021. In earlier year, the Company sold 60% of its stake in IIML for a consideration of ₹ 60.05 million. Further, the remaining investment in IIML to the extent of 14% disclosed as "asset classified as held for sale"" on 31 March 2021. During the current year, the Company has sold investment to the extent of 14% for a consideration of ₹ 109.96 million.

Further, during the current year, the Company has executed an amendment agreement to “Share Subscription and Purchase Agreement” executed on 30 April 2019. Pursuant to the amendment agreement, the Company has sold its remaining stake of 26% in IIML for consideration of ₹ 250.00 million and recognised resultant gain of ₹ 210.98 million.

(b) **Sale of non-convertible debentures of Sterlite Grid 14 Limited and Sterlite Grid 18 Limited**
The Company has entered into a Framework Agreement with AMP Capital Infrastructure Investment No.2 S.A R.L. (‘AMP Capital’) dated 28 December 2020 (‘the Agreement’) for investment in the subsidiaries of the Company which are engaged in the business of developing, designing, financing, constructing and maintaining power transmission systems on a ‘build own operate and maintain’ basis in India. Pursuant to the Agreement, AMP Capital would invest in 50% of the promoter's investment in the form of equity shares, non-convertible debentures and compulsorily convertible debentures in Sterlite Grid 14 Limited (‘SGL14’) and Sterlite Grid 18 Limited (‘SGL18’). Accordingly, as per the terms of the Agreement, 50% of the non-convertible debentures of the above mentioned entities which were held by the Company have been sold to AMP Capital subsequent to the balance sheet date and hence are classified as assets held for sale as at March 31, 2021.

(c) **Sale of Khargone Transmission Limited**
The Company had entered into a Framework agreement with India Grid Trust for selling its entire stake in Khargone Transmission Limited at values agreed in the Framework agreement subject to certain adjustments and the requisite approvals. Since project has been commissioned during the year, it is highly probable that company will realise it's value through sale rather than continue to use. Therefore all the assets held in the Khargone transmission limited has been classified as held for sale.

b. **Terms/rights attached to equity shares**

The Company has only one class of equity shares having a par value of ₹ 2 per share. Each holder of equity shares is entitled to one vote per share.

The Company declares and pays dividends in Indian rupees. In case dividend is proposed by the board of directors, the same is subject to the approval of the shareholders in the general meeting. For the previous year ended March 31, 2021 the Company had declared dividend of 5.30 per share after the reporting period but before the financials statements approval date. The Company has not declared dividend in the current year.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by shareholders.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

Nature and purpose of reserves:

15.1 Securities premium reserve

Securities premium reserve is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

15.2 FVTOCI reserve

The Company has elected to recognise changes in the fair value of certain investments in equity securities in other comprehensive income. These changes are accumulated in FVTOCI reserve within equity. The Company transfers amounts from this reserve to retained earnings when the relevant equity securities are derecognised.

15.3 Cash flow hedge reserve

The Company uses hedging instruments as part of its management of foreign currency risk associated with receivable and payable and commodity risk associated with purchase of aluminium and copper. For hedging these risks, the Company uses commodity future and foreign currency forward contracts. To the extent these hedges are effective, the change in fair value of the hedging instrument is recognised in the cash flow hedging reserve. Amounts recognised in the cash flow hedging reserve is reclassified to the statement of profit or loss when the hedged item affects the statement of profit or loss.

15.4 Capital redemption reserve

During the year ended 31 March 2020, erstwhile wholly owned subsidiary of the Company, Sterlite Power Grid Ventures Limited ('SPGVL') redeemed 154.36 million redeemable preference shares of face value of ₹ 10 each which were issued to the Company and created capital redemption reserve of ₹1,543.65 million as per the requirement of section 69 of the Companies Act, 2013.

During the previous year, National Company Law Tribunal ('NCLT') approved the scheme of amalgamation ('the Scheme') of SPGVL with the Company from an appointed date of 1 April 2017 ("Appointed date") which was filed with the Registrar of Companies on 15 November 2020 ("Effective date"). Since the merger of SPGVL with the Company takes effect from the Appointed date, the capital redemption reserve of ₹1,543.65 million which was created on redemption of redeemable preference shares after Appointed date but before the Effective date of the Scheme has been transferred to retained earnings based on a legal opinion obtained by the management and the shareholders approval obtained in the last AGM.

Also during the Previous year, the Company had redeemed 18 million redeemable preference shares of face value of ₹ 2 each issued to Clix Finance India Private Limited. Accordingly, the Company created capital redemption reserve of ₹ 36 million in compliance of Section 69 of the Companies Act, 2013.

15.5 Debenture Redemption reserve

During the current year, Sterlite Grid 4 Limited has been merged with the Company. Sterlite Grid 4 Limited had created debenture redemption reserve of ₹ 200.00 million in compliance with section 71(4) of the Companies Act 2013.

Term Loans

a Indian rupee term loan from bank

The Company availed term loan under COVID-19 emergency line of credit from Union Bank of India. The term loan carries interest at the rate of 8% p.a. payable monthly. The term loan is to be repaid in 18 monthly instalments of ₹ 2.50 million after 6 months of moratorium period ending on February 2021 from date of disbursement.
The term loan is secured by:

a) First pari-passu charge by the way of hypothecation of stock and book debts;

b) Second pari-passu charge on movable fixed assets of the Company (present and future)

The loan has been repaid during the financial year ended 31 March 2022.

b Indian rupee term loan from financial institution

i) The Indian rupee term loan from Clix Capital Services Private Limited carries interest at the rate of 11.75% p.a. payable monthly. Entire loan amount shall be repayable in two equal quarterly instalments starting from 3 months less than final maturity from the date of disbursement 31 March 2021 and at the end of final maturity i.e. 31 December 2020 and 30 April 2021 respectively.

The term loan is secured by:

a) First pari-passu charge over all present and future current assets of the borrower;

b) Second pari-passu charge over all present and future immovable and movable fixed assets of the borrower;

c) Demand promissory note

d) DSRA equivalent to 1 month interest ensuing interest service obligation

The loan has been repaid during the financial year ended 31 March 2022.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

ii) The Indian rupee loan of ₹ 562.61 million from Arka Fincap Limited carries interest at the rate of 11.25% p.a. payable monthly. The loan amount shall be repayable in four semi annual instalments from date of disbursement. The loan is secured by:

a) First paripassu charge over all current assets of the Company, both present and future immovable and movable fixed assets of the Company

b) Second paripassu charge over all the movable and immovable assets of the Company

c) Interest service reserve (ISRA) of 1 months to be maintained in the form of FDs charged in favour of lender at all times during the tenor of the facility.

The Company has satisfied the covenants attached to the borrowings.

The Company has not been reported as wilful defaulter during the current year

c Redeemable preferences shares

The preference shares carried 0.01% non-cumulative dividend. Holders of preference shares had a preferential right to receive their redemption value in precedence to holders' of equity shares in the event at liquidation.

Interest cost benefit on NCDs of Sterlite Grid 4 Limited for financial year ended 31 March 2022	(98.16)	
Tax /(Reversal of tax) for earlier years	(145.07)	(1,342.49)
Others	(24.28)	(104.49)
At the effective income tax rate of 14.30% (31 March 2021: 40.48%)	**411.44**	**(1,045.70)**
Income tax expense reported in the statement of profit and loss	**411.43**	**(1,045.71)**

For the purpose of recognition and measurement of income tax the amalgamation of Sterlite Grid 4 Limited ("SGL4") with the Company has been considered from the appointed date of April 1,2020 as required by the Income Tax Act, 1961 resulting utilisation of business losses of the Company against the tax liability of SGL4 resulting in earlier year tax credit of ₹ 145.07 million.

During the previous year, the Company had received approval from the National Company Law Tribunal ("NCLT") for scheme of merger Sterlite Power Grid Ventures Limited ("SPGVL") its wholly owned subsidiary of the Company, with the Company ("the Scheme") with the appointed date of 01 April 2017 vide order date 22 May 2020 which was received by the Company on 21 October 2020 and filed with ROC on November 15, 2020. Pursuant to the scheme, the Company had filed revised income tax returns for the respective assessment years. Accordingly, the business losses and unabsorbed depreciation of the Company were set off against the taxable income of erstwhile SPGVL, resulting in reversal of income tax provision of ₹ 1,342.59 million pertaining to years prior to financial year ended 31 March 2021.

Goods transferred at a point in time	15,802.40	12,790.70
Services transferred over time	22,008.39	16,313.95
Total revenue from contracts with customers	**37,810.79**	**29,104.64**

22 (a) Performance obligations

Information about the Company's performance obligations are summarised below:

Revenue from sale of conductors, power cables and traded goods

The performance obligation is satisfied upon delivery of conductor, power cable or traded aluminium ingots and rods and payment is generally due within 60 to 365 days from delivery. Some contracts provide the Company right to receive price variation from customers on account of changes in metal prices.

Revenue from engineering, procurement and construction (EPC) contracts

The performance obligation is satisfied progressively over the construction period. The Company's progress towards completion is measured based on the proportion that the contract expenses incurred to date bear to the estimated total contract expenses. Payment is due as per the achievement of contractual milestones.

Project consultancy services

Project consultancy services represent the performance obligation for providing consultation services in relation to designing and testing of conductors and are satisfied over-time. Payment is generally due within 30 days from provision of service.

Revenue from services rendered to joint ventures

Services rendered to joint ventures represent the performance obligation for providing various consultation and agency services in relation to joint venture entities which are satisfied at a point of time.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

22 (b) Assets and liabilities related to contracts with customers

(₹ in million)

	31 March 2022	31 March 2021
Balances at the beginning of the year		
Trade receivables	9,755.41	8,639.88
Contract assets	1,440.03	2,208.49
Contract liabilities	10,043.39	7,199.88
Balances at the end of the year		
Trade receivables	13,491.50	9,755.41
Contract assets	976.82	1,440.03
Contract liabilities	8,116.18	10,043.39

The Company receives payments from customers based on a billing schedule, as established in the contracts. Contract asset relates to the conditional right to consideration for completed performance under the contract. Accounts receivable are recognised when the right to consideration becomes unconditional. Contract liability relates to payments received in advance of performance under the contract. Contract liabilities are recognised as revenue as (or when) performed under the contract. Also there are no significant changes in the contract assets and contract liabilities balances during the reporting period.

22 (c) Revenue recognised in relation to contract liabilities

(₹ in million)

	31 March 2022	31 March 2021
Revenue recognised that was included in the contract liability balance at the beginning of the year	7,794.11	7,199.88

22 (d) Transaction price allocated to the remaining performance obligations

(₹ in million)

	31 March 2022	31 March 2021
Expected to be recognised as revenue over the next one year	28,423.59	29,191.52
Expected to be recognised as revenue beyond next one year	7,771.84	22,328.90
Total	**36,195.42**	**51,520.42**

NOTE 23: FINANCE INCOME

(₹ in million)

	31 March 2022	31 March 2021
Interest income on		
- Bank deposits	133.42	52.62
- Loans and Non -convertible debenture to related parties (refer note 45)	678.75	192.36
Gain on sale of non-convertible debentures	20.67	-
Gain on sale of mutual funds	-	4.93
Reversal of provision for interest on advance tax	-	78.40
Fair value gain on financial instruments measured at fair value through profit or loss	-	82.33
Others	16.44	29.93
Total	**849.28**	**440.57**

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

NOTE 24: OTHER INCOME

(₹ in million)

	31 March 2022	31 March 2021
Net gains on sale of property, plant and equipment, (net)	-	1.86
Net gains on sale of investment in IIML(associate) and units of India Grid Trust (refer note 10a)	297.50	213.92
Consideration received from India Grid Trust on sale of Sterlite Grid 3 Limited	-	173.59
Consideration received from India Grid Trust on sale of investments in earlier years*	-	673.33
Income on investment in India Grid Trust	11.47	537.73
Dividend income on equity instruments measured at fair value through other comprehensive income	-	1,226.51
Miscellaneous income	62.88	150.37
Total	**371.85**	**2,977.31**

** In earlier years, the Company sold the investment in various subsidiaries to India Grid Trust. During the previous year, India Grid Trust has paid earn outs related to claim in increase in tariff due to change in law, income tax refund and VAT refund to the Company.*

NOTE 25: COST OF RAW MATERIAL AND COMPONENTS CONSUMED

(₹ in million)

	31 March 2022	31 March 2021
Inventory at the beginning of the year	1,871.70	1,454.23
Add: Purchases during the year	10,941.21	8,492.99
	12,812.92	**9,947.22**
Less: Inventory at the end of the year	809.56	1,871.70
Cost of raw material and components consumed	**12,003.35**	**8,075.52**

NOTE 26: CONSTRUCTION MATERIAL AND CONTRACT EXPENSES

(₹ in million)

	31 March 2022	31 March 2021
Construction material consumed		
Inventory at the beginning of the year	412.72	412.72
Add: Purchases during the year	12,392.13	6,529.07
Less: Inventory at the end of the year	(309.98)	(412.72)
	12,494.88	**6,529.07**
Subcontracting charges*	3,767.80	4,576.43
Total	**16,262.68**	**11,105.50**

**These charges pertain to services availed in relation to engineering, procurement and construction (EPC) contracts.*

NOTE 27: DECREASE IN INVENTORIES OF FINISHED GOODS, WORK-IN-PROGRESS AND TRADED GOODS

(₹ in million)

	31 March 2022	31 March 2021
Opening inventories:		
Traded goods	58.21	34.90
Work-in-progress	205.64	264.51
Finished goods	762.44	2006.93
	1,026.29	**2,306.34**
Closing inventories:		
Traded goods	11.20	58.21
Work-in-progress	340.83	205.64
Finished goods	497.42	762.44
	849.45	**1,026.29**
Decrease in inventories of finished goods, work-in-progress and traded goods	**176.85**	**1,280.05**

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

NOTE 28: EMPLOYEE BENEFITS EXPENSE

(₹ in million)

	31 March 2022	31 March 2021
Salaries, wages and bonus	1,916.83	1,992.32
Contribution to provident fund and superannuation fund	56.61	62.60
Employees stock appreciation rights expense (refer note 47)	(16.37)	261.14
Gratuity expense (refer note 34)	24.53	34.92
Staff welfare expenses	65.00	46.52
Total	**2,046.60**	**2,397.50**

NOTE 29: OTHER EXPENSES

(₹ in million)

	31 March 2022	31 March 2021
Consumption of stores and spares	91.27	67.58
Power, fuel and water	303.02	196.80
Repairs and maintenance		
- Building	17.37	16.77
- Machinery	122.54	71.97
Service expenses and labour charges	247.53	212.21
Consumption of packing materials	324.10	296.18
Sales commission	168.53	182.13
Advertisement & sales promotion	33.72	11.68
Carriage outwards	814.27	464.79
Rent	50.62	35.17
Insurance	72.32	63.58
Rates and taxes	121.88	105.84
Travelling and conveyance	187.60	132.13
Legal and professional fees	307.63	1,149.87
Loss on sale of property, plant & equipment (net)	4.48	-
Corporate social responsibility expenses*	30.17	25.09
Impairment allowance for trade receivables and advances	103.59	97.64
Directors sitting fees (refer note 45)	14.17	14.50
Payment to auditor (refer details below)	12.20	13.93
Miscellaneous expenses	594.75	767.94
Total	**3,621.75**	**3,925.80**

Payment to auditor

(₹ in million)

	31 March 2022	31 March 2021
As auditor:		
Audit fee (including audit of consolidated financial statements)	9.55	8.00
Tax audit fee	1.25	1.25
Other services (fees related to certifications)	1.40	4.68
Total	**12.20**	**13.93**

**Section 135 of the Companies Act, 2013 not is applicable on the Company but 2% of its average net profits of the last three financial years is negative. Hence the Company isn't required to contribute towards Corporate Social Responsibility activities. Though during the current year the Company has spent ₹ 30.17 million.(31 March 2021 ₹: 25.09 million) on non-capital related activities.*

Details of CSR expenditure:

NOTE 30: DEPRECIATION AND AMORTISATION EXPENSE

(₹ in million)

	31 March 2022	31 March 2021
Depreciation of tangible assets	244.91	283.60
Depreciation of right-of-use assets	78.91	76.13
Amortisation of intangible assets	66.83	65.75
Total	**390.65**	**425.48**

NOTE 31: FINANCE COST

(₹ in million)

	31 March 2022	31 March 2021
Interest on financial liabilities measured at amortised cost	675.17	2,686.11
Bill discounting and factoring charges	78.05	248.49
Bank charges	349.48	388.27
Lease charges	16.85	3.94
Total	**1,119.56**	**3,326.81**

NOTE 31A: EXCEPTIONAL ITEMS

(₹ in million)

	31 March 2022	31 March 2021
Initial public offer related expenses	117.00	-
Total	**117.00**	-

**During the year, the Company had filed its Draft Red Herring Prospectus with Securities & Exchange Board of India (SEBI) for a proposed Initial Public Offering (IPO) of its equity shares. The Company incurred expenses of ₹ 117.00 million in connection with proposed IPO. Management has informed that the current market conditions are not conducive for listing and hence the same is not pursued. Accordingly, management has charged off expenses incurred on the IPO as non recurring expenses. Considering the nature of the expenses management has disclosed it as an "exceptional item" for the financial year ended March 31,2022. It also includes payment of ₹ 30.25 million made to auditors related to professional services rendered for special purpose audits, certification work and deliverables related to proposed initial public offer,*

NOTE 32: EARNINGS PER SHARE (EPS)

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year.
Diluted EPS amounts are calculated by dividing the profit attributable to equity holders by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

The following reflects the profit and share data used in the basic and diluted EPS:

(₹ in million)

	31 March 2022	31 March 2021
Profit attributable to equity shareholders for computation of basic and diluted EPS	2,582.78	3,629.26
Weighted average number of equity shares in calculating basic and diluted EPS	61.18	61.18
Earnings per share (₹)		
Basis and diluted (on nominal value of ₹ 2 per share)	42.21	59.32

NOTE 33: SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's standalone financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the standalone financial statements:

Assets held for sale

The Company had entered into a Framework agreement with India Grid Trust for selling its entire stake in Khargone Transmission Limited at values agreed in the Framework agreement subject to certain adjustments and the requisite approvals. Since project has been commissioned during the year, it is highly probable that company will realise it's value through sale rather than continue to use. Therefore the invetsment in Khargone Transmission Limited has been classified as held for sale.

Accounting for Merger of Sterlite Grid 4 Limited ("SG4L")

The Scheme of Amalgamation of Sterlite Grid 4 Limited ('SGL4') being a wholly owned subsidiary of the Company with the Company has been sanctioned by National Company Law Tribunal ('NCLT') vide its order dated 17 February 2022. The Company has received certified copy of the order which is filed with Registrar of Companies on March 14,2022 ('Effective date').

Management has assessed that the amalgamation of SGL4 (including project SPVs) with the Company is an asset acquisition since it doesn't fulfil / meet the definition of business as per Ind AS 103, Business Combinations. Therefore, the amalgamation of SGL4 with the Company is accounted from the Effective date when all substantial conditions for the transfer of assets and liabilities are completed. Also, the amalgamation of SGL4 with the Company is not considered as a common control transaction under Appendix C to Ind AS 103, the comparative periods are not restated.

"Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

Revenue recognition for construction contracts- EPC contracts

As described in Note 2.2, revenue and costs in respect of construction contracts are recognised by reference to stage of completion of the contract activity at the end of the reporting period, measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs. The Company estimates the total cost of the project at each period end. These estimates

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

are based on the rates agreed with vendors/sub contractors and management's best estimates of the costs that would be incurred for the completion of project based on past experience and/or industry data. These estimates are re-assessed at each period end. Variations in contract works, claims and incentive payments are included to the extent that the amount can be measured reliably and its receipt is considered probable. When it is probable that total contract cost will exceed total contract revenue, the expected loss is recognised as an expense immediately.

Defined benefit plans (gratuity benefits)
The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The underlying bonds are further reviewed for quality. Those having excessive credit spreads are excluded from the analysis of bonds on which the discount rate is based, on the basis that they do not represent high quality corporate bonds.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

Further details about gratuity obligations are given in Note 34.

Taxes
Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with the future tax planning strategies.

Fair value measurement of financial instruments
When the fair values of financial assets recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Changes in assumptions about these factors could affect the reported fair value of financial instruments. Note 41,42 & 43 for further disclosures.

Provision for expected credit losses of trade receivables and contract assets
"The Company performs an impairment analysis at each reporting date on an individual basis for major customers. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on historical observed data for defaults. At every reporting date, the historical observed default rates are updated. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets. Further, for companies engaged in the power infrastructure business, major receivables are from few customers and is based on point of connection mechanism (Note 22), hence the concentration of risk with respect to trade receivables is low.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

NOTE 34: GRATUITY DISCLOSURES

The Company has a defined benefit gratuity plan. Every employee working in the Company gets a gratuity on departure at 15 days salary (last drawn salary) for completed period of service.

Changes in the present value of the defined benefit obligation are as follows:

(₹ in million)

Particulars	31 March 2022	31 March 2021
Defined benefit obligation at the beginning of the year	100.37	84.72
Interest cost	5.67	4.70
Current service cost	18.87	16.87
Past service cost	-	13.35
Benefits paid directly by the Company	(22.48)	(23.82)
Actuarial (gain)/loss due to change in financial assumptions	6.77	(3.86)
Actuarial (gain)/loss on obligation due to experience adjustments	3.55	8.01
Actuarial (gain)/loss on obligation due to demographic assumptions	1.03	0.40
Present value of defined benefit obligation at the end of the year	**113.78**	**100.37**

Changes in the present value of the defined benefit plan asset:

(₹ in million)

Particulars	31 March 2022	31 March 2021
Defined benefit plan asset at the beginning of the year	-	-
Employer's contribution	24.99	-
Benefits paid directly by the Company	(10.33)	-
Return on plan assets excluding amounts recognised in net interest expense	0.96	-
Present value of defined benefit plan asset at the end of the year	**15.62**	**0.00**

Details of defined benefit obligation

(c) The Company had entered into a Share Purchase agreement with Vinci Energeia Fundo De Investimento EM Participacoes Infraestrutura and Cymi Construcoes Participacoes S.A. for selling its stake in Vineyards Participacoes S.A. at values as agreed in the Share Purchase agreement subject the requisite approvals.

NOTE 37: CONTINGENT LIABILITIES

(₹ in million)

		31 March 2022	31 March 2021
1	Disputed liabilities in appeal:		
	a) Excise duty	73.56	76.40
	b) Value Added Tax (VAT) and Central sales tax (refer note i below)	38.98	294.06
2	Performance guarantee to insurer on behalf of subsidiaries	2,265.27	2,611.32
3	**Bank guarantees given:**		
	- To long term transmission customers on behalf of its subsidiary/ Joint ventures companies.	3,261.25	3,543.93
	- For bidding of projects on behalf of its subsidiaries	300.00	205.00
	- On behalf of India Grid Trust ('IGT')	25.00	25.00
	- To India Grid Trust ('IGT') for various claim with respect to sale of investments (refer note ii and iii below)	1,336.00	1,000.00
	- For advance received from customers	800.00	-
4	**Corporate guarantees given:**		
	- To India Grid Trust ('IGT') for clearance of items mentioned in the share purchase agreement with respect to sale of ENICL	350.00	350.00
	- To India Grid Trust ('IGT') for various claim with respect to sale of investments	-	500.00
	- Given on behalf of its related party revenue contract executed	188.60	188.60
	- On behalf of its subsidiary for issuance of non-convertible debentures during the year	-	2,000.00

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

Further, pursuant to share purchase agreement with India Grid Trust, the Company is to indemnify India Grid Trust for entry tax demand of ₹ 252.78 million (31 March 2021 ₹ 252.31 million) sales tax demands of ₹ 9.34 million (31 March 2021: ₹ 43.88 million) and income tax act ₹ 27.92 million (31 March 2021: 27.90 million) in relation to the Companies sold to India Grid Trust.

(i) The above Value Added Tax, Central Sales Tax and Entry Tax demand (along with the applicable interest, wherever levied) pertains to the following matters.

(a) Central Sales Tax demand of ₹ 16.80 million (31 March 2021 of ₹ 16.80 million) raised under the Delhi VAT Act, 2004 on account of non-submission of the declaration forms C pending to be received from the customers for the Assessment Year 2014-15.

(b) Value Added Tax, Central Sales Tax and Entry Tax demand of ₹14.31 million (31 March 2021 of ₹ 14.31 million) raised under the Madhya Pradesh VAT Act, 2002 on account of non-submission of the declaration forms EI/EII and Form 3 pending to be received / submitted for the Assessment Year 2015-16. The Company has deposited an amount of ₹ 4.77 million (31 March 2021: 4.77 million) while preferring the appeal in this matter.

(c) Central Sales Tax demand of ₹ 5.53 million (31 March 2021 ₹ 5.53 million) raised under the West Bengal VAT Act, 2003 on account of non-submission of the declaration forms C pending to be received / submitted for the Assessment Year 2014-15 and the Company has deposited an amount of ₹ 0.56 million (31 March 2021: ₹ 0.56 million) while preferring the appeal in this matter.

(d) VAT and CST demand of ₹ Nil (31 March 2021: ₹ 30.95 million) pertains to Telangana VAT Act, 2003 on account on non discharge of VAT liability by sub- contractor for the period December 2015 to June 2017. The Company has deposited an amount of ₹ 3.44 million (31 March 2021: ₹ Nil million) while preferring the appeal in this matter.

(e) Central Sales Tax demand of ₹ 1.46 million (31 March 2021: 185.93 million) pertains to the demand raised under the Jharkhand VAT Act, 2005 on account of non-submission of the C form and EII forms pending to be received from the suppliers for the Assessment Year 2015-16, Assessment year 2016-17 and Assessment year 2017-18.

(f) Central Sales Tax demand of ₹ 0.88 million (31 March 2021: ₹ 0.88 million) pertains to the demand raised under the Odisha VAT Act, 2004 on account of non-submission of the E1 declaration forms pending to be received from the suppliers for the Assessment Year 2016-17 and 2017-18. The Company has deposited an amount of ₹ 0.10 million (31 March 2021: ₹ 0.10 million) while preferring the appeal in this matter.

g) Value Added Tax demand of ₹ Nil (31 March 2021: ₹12.78 million) raised under the Uttarakhand Vat Act,2005 on account of non-submission of the C Form pending to be received / submitted for the Assessment Year 2012-13, 2014-15 and 2015-16.

h) Value Added Tax demand of ₹ Nil (31 March 2021: ₹ 12.64 million) raised under the Orissa Value Added Tax Act, 2004 on account of non-submission of the C Form pending to be received / submitted for the Assessment Year October-15 - March-16, April-16 - June-16 and April-14 - September-15.

i) Value Added Tax demand Nil (31 March 2021: ₹14.36 million) raised under the Dadra & Nagar Haveli Value Added Tax Act, 2005 on account of non-submission of the C Form pending to be received / submitted for the Assessment Year 2012-13, 2013-14, 2014-15, 2015-16 and July-16 - March-17.

The Company is contesting the demand by way of preferring appeals to the higher tax authorities and the management, including its tax advisors, believe that it's position will likely be upheld in the appellate process. No expense has been accrued in the financial statements for the tax demands raised. The management believes that the ultimate outcome of these proceedings will not have a material adverse effect on the company's financial position and results of the operations.

(ii) During the earlier years, one of the vendor involved in construction of power transmission infrastructure has filed arbitration proceedings against East-North Interconnection Company Limited ('ENICL') in relation to turnkey construction contract executed by in earlier years which is pending before Arbitral Tribunal. The management doesn't expect the claim to succeed and accordingly no provision for the contingent liability has been recognised in the standalone financial statements.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

(iii) During the year, one of the MSME vendor has filed arbitration proceedings against the Company which is pending before Delhi International Arbitration Centre ("DIAC"). The Company had filed a writ petition to Hon. Delhi High Court basis which the High Court has ordered DIAC for stay of proceedings. The management doesn't expect the claim to succeed and accordingly no provision for the contingent liability has been recognised in the standalone financial statements.

NOTE 38: HEDGING ACTIVITIES AND DERIVATIVES

Cash flow hedges

Foreign exchange forward contracts

Foreign exchange forward contracts measured at fair value through other comprehensive income are designated as hedging instruments in cash flow hedges of highly probable forecast transactions/firm commitments, majorly for sales and purchases in USD and EUR. The foreign exchange forward contract balances vary with the level of expected foreign currency sales and purchases and changes in foreign exchange forward rates. The terms of the foreign currency forward contracts match the terms of the expected highly probable forecast transactions. As a result, generally, no hedge ineffectiveness arise requiring recognition through profit or loss.

Commodity future contracts

Commodity future contracts entered on London Metal Exchange (LME) measured at fair value through other comprehensive income are designated as hedging instruments in cash flow hedges of highly probable forecast transactions/firm commitments for purchases of aluminium and copper. The futures contract balances vary with the level of expected quantity of purchases of aluminium and copper. The terms of the future contracts match the terms of the expected highly probable forecast transactions/firm commitments. As a result, generally, no hedge ineffectiveness arise requiring recognition through profit or loss.

The cash flow hedges during the year ended 31 March 2022 were assessed to be highly effective, and a net unrealised gain of ₹ 1,603.10 million (net of deferred tax of ₹ 538.28 million), (31 March 2021 ₹ 769.94 million) (net of deferred tax of ₹ 238.35 million) is included in other comprehensive income. The amounts retained in other comprehensive income at 31 March 2022 are expected to mature and affect the statement of profit and loss during the year ended 31 March 2023.

NOTE 39: DERIVATIVE INSTRUMENTS

(a) The following are the outstanding forward exchange contracts entered into by the Company, for hedge purpose, as on 31 March 2022

	Foreign currency (In million)	Amount (₹ in million)	Buy/Sell	No. of contracts (Quantity)
31 March 2022				
Hedge of payables, suppliers credit and highly probable purchases	USD 101.33	7,681.30	Buy	141
Hedge of trade receivables, margin money deposits and highly probable sale	USD 114.05	8,645.76	Sell	60
Hedge of payables and highly probable purchases	EUR 1.05	88.72	Buy	3
Hedge of trade receivables and highly probable sale	EUR 6.68	565.94	Sell	10
31 March 2021				
Hedge of payables, suppliers credit and highly probable purchases	USD 95.03	6,985.05	Buy	101
Hedge of trade receivables, margin money deposits and highly probable sale	USD 60.44	4,442.84	Sell	66
Hedge of payables and highly probable purchases	-	-	Buy	-
Hedge of trade receivables and highly probable sale	EUR 15.94	1,372.60	Sell	20

Notes to Financial Statements

(All amounts in ₹ million unless otherwise stated)

(b) The year end foreign currency exposures that have not been hedged by a derivative instrument or otherwise are given below:

Amounts payable in foreign currency on account of the following:

	Currency type	Foreign currency (In million)	Amount (₹ in million)
31 March 2022			
Import of goods and services	EUR	0.00	0.13
Import of goods and services	USD	0.13	9.62
31 March 2021			
Import of goods and services	EUR	0.07	5.82
Import of goods and services	USD	0.85	62.56

(c) Commodity future contracts to hedge against fluctuation in commodity prices:

The following are the outstanding future contracts entered into by the Company as on 31 March 2022:

	Foreign currency (In million)	No. of contracts	Contracted quantity MT	Buy/Sell
31 March 2022	Aluminium	127	34,622	Buy
31 March 2022	Aluminium	19	9,345	Sell
31 March 2022	Copper	6	153	Buy
31 March 2022	Copper	4	149	Sell
31 March 2021	Aluminium	143	60,705	Buy
31 March 2021	Aluminium	31	10,359	Sell
31 March 2021	Copper	4	323	Buy
31 March 2021	Copper	1	275	Sell
31 March 2021	Midwest premium on aluminium	4	100	Buy
31 March 2021	Midwest premium on aluminium	4	100	Sell

NOTE 40: DETAILS OF DUES TO MICRO AND SMALL ENTERPRISES AS DEFINED UNDER MSMED ACT, 2006

(₹ in million)

Description		31 March 2022	31 March 2021
(i)	The principal amount and the interest due thereon (to be shown separately) remaining unpaid to any supplier as at the end of each accounting year.		
	Principal amount due to micro and small enterprises	490.95	522.16
	Interest due on above	5.34	26.38
(ii)	The amount of interest paid by the buyer in terms of section 16, of the Micro Small and Medium Enterprises Development Act, 2006 along with the amounts of the payment made to the supplier beyond the appointed day during each accounting year.	-	-
(iii)	The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under Micro Small and Medium Enterprises Development Act, 2006.	-	-
(iv)	The amount of interest accrued and remaining unpaid at the end of each accounting year.	6.05	26.38
(v)	The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under section 23 of the Micro Small and Medium Enterprises Development Act, 2006.	-	-

Interest payable as per section 16 of the Micro, Small and Medium Enterprises Development (MSMED) Act, 2006 to the extent of ₹ 6.05 million (31 March 2021: 26.38 Million) is accrued in the books of accounts.

Dues to micro and small enterprises have been determined to the extent such parties have been identified on the basis of intimation received from the suppliers/information available with the Company regarding their status under MSMED Act, 2006.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

NOTE 41: FAIR VALUES

Set out below, is a comparison by class of the carrying amounts and fair value of the Company's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

(₹ in million)

Particulars	Carrying Value		Fair Value	
	31 March 2022	31 March 2021	31 March 2022	31 March 2021
Financial assets				
Investment in subsidiaries	3,768.20	14,477.05	3,768.20	14,477.05
Investment in joint venture	1,417.47	43.27	1,417.47	43.27
Investment in units	-	286.15	-	286.15
Investment others	112.45	112.45	112.45	112.45
Investment in mutual funds	-	9.07	-	9.07
Derivative instruments	522.69	1,173.86	522.69	1,173.86
Total	**5,820.82**	**16,101.85**	**5,820.82**	**16,101.85**
Financial liabilities				
Derivative instruments	7.46	115.63	7.46	115.63
Total	**7.46**	**115.63**	**7.46**	**115.63**

The management assessed that cash and cash equivalents, other bank balances, trade receivables, trade payables, other current assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. The management has further assessed that borrowings availed and loans given approximate their carrying amounts largely due to the interest rates being variable or in case of fixed rate borrowings/loans, movements in interest rates from the recognition of such financial instrument till period end not being material.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- The fair values of the quoted mutual funds are based on price quotations at the reporting date.
- The fair values of the unquoted equity instruments and compulsorily convertible debentures have been estimated using a DCF model. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows, discount rate, credit risk and volatility. The probabilities of the various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted equity investments and compulsorily convertible debentures.
- The Company enters into derivative financial instruments with financial institutions with investment grade credit ratings. Foreign exchange forward contracts are valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques include forward pricing model, using present value calculations. The models incorporates various inputs including the credit quality counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies, currency basis spread between the respective currencies, interest rate curves etc. The fair values of commodity futures contracts are based on price quotations on LME at the reporting date. The changes in counterparty credit risk had no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationships and other financial instruments recognised at fair value.

The significant unobservable inputs used in the fair value measurement categorised within Level 3 of the fair value hierarchy together with a quantitative sensitivity analysis as at 31 March 2022 and 31 March 2021 are as shown below:

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

Description of significant unobservable inputs to valuation:

A FVTOCI assets - unquoted equity shares in subsidiaries and joint ventures and compulsorily convertible debentures of joint ventures

The fair value of the investments in equity instruments of subsidiaries and joint ventures and and compulsorily convertible debentures of joint ventures have been determined based on the fair values of the various Indian and Brazilian transmission projects owned by the Company. Such fair values have been computed based on discounted cash flow (DCF) method during the year ended 31 March 2022 and 31 March 2021.

The Company has entered into a Framework agreement with India Grid Trust for selling its entire stake in Khargone Transmission Limited at an agreed enterprise values subject to adjustments referred in the Framework agreement. The management has fair valued the equity investment in KTL as per the value mentioned in the Framework agreement hence no fair value sensitivity has been disclosed.

(a) Investment in Indian transmission projects in equity shares and compulsorily convertible debentures of joint ventures

(₹ in million)

Significant unobservable inputs	Range	Sensitivity of the input to fair value	Increase/(decrease) in Fair Value (of equity shares	
			31 March 2022	31 March 2021
i) Cost of equity	(i) New/under construction project - 31 March 2022 -13.50%- 15.00% 31 March 2021 - 14.75%	 0.5% increase 0.5% decrease	 (390.27) 422.89	 (302.38) 327.27
ii) Cost of debt	31 March 2022 - 8.00% 31 March 2021 - 8.25%	0.5% increase 0.5% decrease	(2,287.14) 2,277.07	(1,300.15) 1,292.11
iii) Incremental tariff expected to be approved by CERC in respect of cost overruns due to force majeure/change in law (as % of non-escalable tariff)	Incremental tariff has been considered in the fair valuation of Khargone Transmission Limited for the year ended 31 March 2022 and 31 March 2021	Increase by 5% (of non-escalable tariff) Decrease by 5% (of non- escalable tariff)	32.89 (32.89)	47.19 (47.19)
iv) Project cost (for under construction assets)		5% increase 5% decrease	(3,875.64) 1,897.67	(2,258.71) 61.52

NOTE 43: FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's principal financial liabilities, comprise borrowings, trade and other payables and other financial liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include Investments, loans, trade and other receivables, cash and short-term deposits and other financial assets that derive directly from its operations. The Company also holds FVTOCI investments and enters into derivative transactions.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Company's policy that no trading in derivatives for speculative purposes may be undertaken. The Company reviews and agrees policies for managing each of these risks, which are summarised below:

The Risk Management policies of the Company are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

Management has overall responsibility for the establishment and oversight of the Company's risk management framework. In performing its operating, investing and financing activities, the Company is exposed to the Credit Risk, Liquidity Risk and Market risk.

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, investments and derivative financial instruments.

The sensitivity analysis in the following sections relate to the position as at 31 March 2022 and 31 March 2021.

The sensitivity analysis have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt and derivatives and the proportion of financial instruments in foreign currencies are all constant and on the basis of hedge designations in place at 31 March 2022.

The analyses exclude the impact of movements in market variables on the carrying values of gratuity and provisions.

The following assumption has been made in calculating the sensitivity analysis:

- The sensitivity of the relevant statement of profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March 2022 and 31 March 2021.

Interest rate risk

Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rate primarily relates to the Company's long term debt obligations with floating interest rates.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

The Company is exposed to the interest rate fluctuation in domestic borrowing. The Company has all its borrowing on floating rate of interest.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in the interest rates on that portion of loans and borrowings affected. With all the other variables held constant, the Company's profit/(loss) before tax is affected through the impact on floating rate borrowings, as follows:

(₹ in million)

Particulars	Increase/ Decrease in Basis Points	Effect on profit before tax / pre-tax equity
31 March 2022		
Base Rate	+50	0.98
Base Rate	-50	(0.98)
31 March 2021		
Base Rate	+50	24.73
Base Rate	-50	(24.73)

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency).

The Company has a policy to keep minimum forex exposure on the books that are likely to occur within a maximum 12-month period for hedges of forecasted sales and purchases.

When a derivative is entered into for the purpose of being a hedge, the Company negotiates the terms of those derivatives to match the terms of the hedged exposure. For hedges of forecast transactions the derivatives cover the period of exposure from the point the cash flows of the transactions are forecasted up to the point of settlement of the resulting receivable or payable that is denominated in the foreign currency.

Out of total foreign currency exposure, the Company has hedged the exposure of 99.99% as at 31 March 2022 and 94.36% as at 31 March 2021.

Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD, and EUR exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities. The impact on the Company's pre-tax equity is due to changes in the fair value of forward exchange contracts designated as cash flow hedges. The Company's exposure to foreign currency changes for all other currencies is not material. With all the other variable held constant, the Company's profit before tax is affected through the impact on change of foreign currency rate as follows-

(₹ in million)

	Change in USD rate	Effect on profit before tax / pre-tax equity	Change in Euro rate	Effect on profit before tax / pre-tax equity
31 March 2022	+5%	(0.48) / (0.36)	+5%	(0.01) / (0.01)
	-5%	0.48 / 0.36	-5%	0.01 / 0.01
31 March 2021	+5%	(11.16) / (8.35)	+5%	(0.29) / (0.22)
	-5%	11.16 / 8.35	-5%	0.29 / 0.22

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

Commodity price risk

The Company is affected by the price volatility of certain commodities. Its operating activities require the ongoing purchase of aluminium and copper for manufacture of conductor and OPGW, power cables and therefore require a continuous supply of aluminium and copper. Due to the volatility of the price of aluminium and copper, the Company enters into various purchase contracts for aluminium and copper on London Metal Exchange. The prices in these purchase contracts are linked to the price on London Metal Exchange.

The Company's Board of Directors has developed and enacted a risk management strategy regarding commodity price risk and its mitigation.

Based on a 1 month forecast of the required copper, and aluminium supply, the Company hedges the purchase price using future commodity purchase contracts. The forecast is deemed to be highly probable.

Commodity price sensitivity

As per the Company's policy for commodity price hedging, all the commodity price exposures as on reporting dates are fully hedged. Thus, there are no open unhedged exposures on the reporting dates.

Equity price risk

"The Company's listed units and listed and unlisted equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the equity price risk by placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Company's senior management on a regular basis. The Company's Board of Directors reviews and approves all equity investment decisions.

At the reporting date, the exposure to listed units and listed and unlisted equity securities at fair value was ₹ 5,249.50 million (31 March 2021: ₹14,927.99 million). Sensitivity analysis of these investments have been provided in note 41.

(₹ in million)

Significant unobservable inputs	Range	Sensitivity of the input to fair value	Increase/(decrease) in Fair Value	
			31 March 2022	31 March 2021
Net assets at fair value of India Grid Trust	Nil (31 March 2021: ₹ 140.24 per unit)	0.50%	NA	1.43
		-0.50%	NA	(1.43)

(b) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment. Outstanding customer receivables are regularly monitored and any shipments to major customers are generally covered by letters of credit or other forms of credit insurance.

An impairment analysis is performed at each reporting date on an individual basis for major customers.
In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on losses historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

Financial guarantee contracts

The Company is exposed to credit risk in relation to financials guarantee given by the Company on behalf of subsidiaries. The Company's maximum exposure in this regard is the maximum amount Company could have to pay if the guarantee is called on as at 31 March 2022

Notes to Financial Statements

for the year ended March 31, 2022

(All amounts in ₹ million unless otherwise stated)

₹ 6,260.85 million (31 March 2021: ₹ 24,863.78 million). These financial guarantees have been issued to bank and long term transmission customer on behalf of its subsidiaries. Based on the expectations at the end of reporting period, the Company considers likelihood of any claim under guarantee is remote.

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Company's Board of Directors on an annual basis, and may be updated throughout the year. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

The Company's maximum exposure to credit risk for the components of the balance sheet at 31 March 2022 and 31 March 2021 is the carrying amounts of each class of financial assets except for financial guarantees and derivative financial instruments. The Company's maximum exposure relating to financial guarantees and financial derivative instruments is noted in Note 38 and the liquidity table below:

(c) Liquidity risk

Liquidity risk is the risk that the Company may encounter difficulty in meeting its present and future obligations associated with financial liabilities that are required to be settled by delivering cash or another financial asset. The Company's objective is to, at all times, maintain optimum levels of liquidity to meet its cash and collateral obligations. The Company requires funds both for short term operational needs as well as for long term investment programs mainly in growth projects. The Company closely monitors its liquidity position and deploys a robust cash management system. It aims to minimise these risks by generating sufficient cash flows from its current operations, which in addition to the available cash and cash equivalents, liquid investments and sufficient committed fund facilities, will provide liquidity.

The liquidity risk is managed on the basis of expected maturity dates of the financial liabilities. The average credit period taken to settle trade payables is about 60 - 180 days. The other payables are with short term durations. The carrying amounts are assumed to be reasonable approximation of fair value. The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

₹ in million

Particulars	Payable on demand	Less than 3 months	3 months to 12 months	1 year to 5 years	> 5 years	Total
As at 31 March 2022						
Borrowings	1,851.83	450.47	375.17	187.61	-	2,865.08

Financial guarantee contract pertains to guarantees given to term loan lender, long term transmission customer on behalf of subsidiaries etc. These will be invoked in case of default by subsidiaries. (refer Note 37)*

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

NOTE 44: CAPITAL MANAGEMENT

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise shareholder value.

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company's policy is to keep the gearing ratio optimum. The Company includes within net debt, interest bearing loans and borrowings, trade payables and other payables, other financial liabilities and advances received from customers less cash and short-term deposits and current investments, excluding discontinued operations, if any.

(₹ in million)

Particulars	31 March 2022	31 March 2021
Interest bearing loans and borrowings	2,865.08	7,533.29
Trade payables	14,021.01	13,621.59
Other financial liabilities	658.85	537.04
Advances received from customers	5,866.89	6,443.57
Less: Cash and short-term deposits and current investments	(2,325.18)	(3,617.22)
Net debt	**21,086.65**	**24,518.26**
Equity share capital	122.36	122.36
Other equity	19,507.73	13,680.33
Total capital	**19,630.09**	**13,802.69**
Capital and net debt	**40,716.74**	**38,320.95**
Gearing ratio	**51.79%**	**63.98%**

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period except Note 16A & 16B.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2022 and 31 March 2021.

 # Sales disclosed above are based on actual billings made to subsidiaries in respect of EPC contracts. However, the Company recognises revenue based on percentage of completion method.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

Note:

1. All the related party transactions disclosed above have been shown at their nominal values without giving effect to the impact of reclassification into equity and liability and adjustment arising on account of effective interest rate method under Ind AS.

2. **Remuneration to key management personnel:**

(₹ in million)

	31 March 2022	31 March 2021
Short-term employee benefits	149.96	89.06
Post-employment benefits *	-	-
Total	**149.96**	**89.06**

* As the liabilities for gratuity and leave encashment are provided on an actuarial basis for the Company as a whole, the amounts pertaining to the key management personnel are not included above.

NOTE 46: SEGMENT INFORMATION

Operating segment:

The Company has only one operating segment which is power product solution and power transmission infrastructure. On review of all the relevant aspects including, in particular, the system of internal financial reporting to the Board of Directors which is the Chief Operating Decision Maker ('CODM') and considering the economic characteristics of the Company's operations, the Company is of the view that it operates in a single primary segment. Hence no separate disclosure under India Accounting Standard 108 is considered necessary. As permitted by paragraph 4 of Ind AS-108, 'Operating Segments', if a single financial report contains both consolidated financial statements and the separate financial statements of the parent, segment information need be presented only on the basis of the consolidated financial statements.

Geographic information:

Geographical revenue is allocated based on the location of the customer. information regarding geographical revenue is as follows:

The Company's revenue from external customers by location of operations and information about its non-current assets by location of assets are detailed below:

(₹ in million)

	31 March 2022	31 March 2021
(1) Revenue from external customers		
- Within India	27,037.97	22,142.43
- Outside India	10,772.82	7,196.09
Total revenue per statement of profit and loss	**37,810.79**	**29,338.52**
The revenue information above is based on the locations of the customers		
(2) Non-current operating assets		
- Within India	2,796.33	2,423.04
- Outside India	-	-
Total	**2,796.33**	**2,423.04**

Non-current assets for this purpose consist of property, plant and equipment, investment properties and intangible assets.

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

NOTE 47A: EMPLOYEE STOCK APPRECIATION RIGHTS

ESAR scheme 2017

The Company has granted Nil million (31 March 2021: 0.65 million) Employee Stock Appreciation Rights (ESARs) to eligible employees under the Employee Stock Appreciation Rights plan 2017 ("ESAR 2017") Scheme ("Scheme") as approved by the Committee formed under the Scheme vide Board Resolution dated 8 October 2017.

Following is the reconciliation of provision for ESARs outstanding:

Particulars	March 31, 2022		31 March 2021	
	Numbers (in million)	Amount (₹ in million)	Numbers (in million)	Amount (₹ in million)
Opening balance as at the beginning of the year	**0.63**	**304.18**	**0.65**	**43.04**
ESARs granted during the period	-	-	0.03	1.70
ESARs cancelled / waived	-	(16.37)	(0.05)	(3.63)
Payment towards ESARs vested	(0.63)	(287.80)	-	-
Balance ESAR	**-**	**-**	**0.63**	**41.10**
Accrual for the year and impact of change in FMV of equity share	-	-	-	263.08
Closing balance as at the end of the year	**-**	**-**	**0.63**	**304.18**

During the year the Company has reversed expense of ₹ 16.37 in statement of profit & loss account and ₹ 287.80 million has been paid to employees towards ESAR vested.

NOTE 47B: PERFORANCE CASH INCENTIVE PLAN FOR EMPLOYEE

Long Term Incentive Plan 2022

During the year, the Company introduced Sterlite Power Plus Performance Cash Incentive Plan– 2021 ('Performance Cash Incentive Plan') for its employees pursuant to the approval from the Nomination and Remuneration committee vide resolution dated 24 September 2021. Performance Cash Incentive Plan is designed to provide annual incentives to the employees of the company to contribute towards long term performance of the Company and achievement of the Company's goals. It is a cash settled plan.

The Nomination and remuneration committee of the Company has approved related vesting conditions for the financial year ended March 31,2022. Vesting of the benefits under Performance Cash Incentive Plan would be subject to continuous employment with the Company and certain performance parameters subject to which the incentives would vest. The total cash incentives payable as per the Performance Cash Incentive Plan are approved by the Nomination and remuneration committee and the cash pay out will be spread over a period of 3 years as per the pay out schedule specified in the Performance Cash Incentive Plan based on the performance parameters achieved by the Company for the financial year ended 31 March 2022.

The Company has recorded liability towards Performance Cash Incentive Plan based on the projected unit completion method. The Company has used certain assumptions such as attrition rate and discount rate to derive the present value of the obligation under Performance Cash Incentive Plan which are mentioned below:

The details of expenses and liability recognised during the year for the Performance Cash Incentive Plan are as follow:

(₹ in million)

Particulars	March 31, 2022	31 March 2021
Opening balance as at the beginning of the year	-	-
Performance Cash Incentive Plan provision during the year	114.30	-
Performance Cash Incentive Plan provision reversed during the year	-	-
Payment towards Performance Cash Incentive Plan vested	-	-
Balance Performance Cash Incentive Plan provision	**114.30**	**-**
Accrual for the year	-	-
Closing balance as at the end of the year	**114.30**	**-**

Notes to Financial Statements

(All amounts in ₹ million unless otherwise stated)

NOTE 48: OTHER NOTES

The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post-employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. However, the date on which the Code will come into effect has not been notified and the final rules/interpretation have not yet been issued. The Company is assessing the impact of the Code when it comes into effect and will record any related impact in the period the Code becomes effective.

NOTE 49: IMPACT OF MERGER OF STERLITE GRID 4 LIMITED

The Scheme of Amalgamation of Sterlite Grid 4 Limited ('SGL4') being a wholly owned subsidiary of the Company with the Company has been sanctioned by National Company Law Tribunal ('NCLT') vide its order dated 17 February 2022. The Company has received certified copy of the order which is filed with Registrar of Companies on March 14,2022 ('Effective date').

Management has assessed that the amalgamation of SGL4 (including project SPVs) with the Company is an asset acquisition since it doesn't fulfil / meet the definition of business as per Ind AS 103, Business Combinations. Therefore, the amalgamation of SGL4 with the Company is accounted from the Effective date when all substantial conditions for the transfer of assets and liabilities are completed as specified in the scheme. As a result the comparative periods are not restated and hence not comparable with the current year.

(a) Balance sheet of Sterlite Grid 4 Limited as on 14 March 2022

Notes to Financial Statements

for the year ended March 31, 2022

(All amounts in ₹ million unless otherwise stated)

NOTE 50: RATIO ANALYSIS AND ITS ELEMENTS

Ratio	Numerator	Denominator	31 March 2022	31 March 2021	% change	Reason for variance
Current ratio	Current assets	Current liabilities	1.23	0.83	48.84%	The increase in current ratio is because of merger of the Sterlite Grid 4 Limited which led to increase in the current assets of the Company and also reduction in the current liabilities of the Company.
Debt-Equity ratio	Total debt = Total Long term Loans + Short term Loans + Current Maturities of Long term Loans - Loan from Wholly Owned Subsidiary	Shareholder's equity = Share capital + Securities premium + Retained earnings + Other reserves	0.13	0.53	-75.62%	The decrease in the ratio is majorly on account of repayment of the borrowings which were availed by the Company and merger of the Sterlite Grid 4 Limited which led to reduction in the short term borrowings availed by the Company from Sterlite Grid 4 Limited.
Debt service coverage ratio	"Net Profit after taxes + Non-cash operating expenses like depreciation and amortizations + Interest + other adjustments like profit / loss on sale of property, plant & equipment "	Debt service = Interest & Lease Payments + Principal repayments	2.54	1.65	53.55%	The increase in the ratio is because of reduction in the total value of debt availed by the Company. During the year, the Company has repaid the long term loans and short term loans.
Return on equity ratio	Profit after tax	Average shareholder's equity = (Opening shareholder's equity + Closing shareholder's equity)/2	15%	27%	-46.07%	The reduction in the return on equity is majorly because of increase in the Shareholder's fund on account of increase in retained earning due to merger of Sterlite Grid 4 Limited.
Inventory turnover ratio	Cost of goods sold = Cost of raw material and components consumed + Purchase of traded goods + Construction material and contract expense + Decrease/(increase) in inventories of finished goods, work-in-progress and traded goods	Average inventories = (Opening inventories + Closing inventories)/2	10.19	5.68	79.44%	The increase in inventory turnover ratio is majorly on account of increase operations of the Company resulting in reduction in inventory level of the Company
Trade receivable turnover ratio	Net credit sales = Revenue from operations	Average trade receivables = (Opening trade receivables + Closing trade receivables)/2	3.27	3.19	2.42%	NA

Notes to Financial Statements

for the year ended March 31, 2022
(All amounts in ₹ million unless otherwise stated)

Ratio	Numerator	Denominator	31 March 2022	31 March 2021	% change	Reason for variance
Trade payable turnover ratio	Net credit purchases = Purchase of raw materials and components + Purchase of traded goods + Construction material and contract expense	Average trade payables = (Opening trade payables + Closing trade payables)/2	2.09	1.46	42.74%	The increase in trade payable turnover ratio is majorly on account of decrease in balance of trade payable due to payment made to the vendors.
Net capital turnover ratio	Net sales = Revenue from operations	Working capital = Current assets - Current liabilities	6.89	(8.23)	-183.75%	The increase in the ratio is majorly on account of improvement in net current asset position of the Company due to merger of Sterlite Grid 4 Limited and increased turnover of the Company during the current year.
Net profit ratio	Net profit = Profit/ (loss) after tax	Net sales = Revenue from operations	6%	12%	-47.51%	The reduction in the ratio is because of reduction in profits of the current year. During the previous year, the Company recognised gain Synergy gain of income tax on account of merger of wholly owned subsidiary i.e. Sterlite Power Grid ventures Limited. The Company had also received dividend from its wholly owned subsidiary in Brazil which led to increase net profits after tax for the previous year. Since there are no such tax gain and dividend income, this has led to decrease in net profits after tax for the current year.
Return on capital employed	Earnings before interest and taxes = Earning before interest, tax, depreciation and amortisation - Depreciation and amortisation expense	Capital employed = Shareholder's equity + Total debt + Deferred tax liability (net) - Intangible assets (including under development)	15%	29%	-47.56%	The reduction in the ratio is because of reduction in profits of the current year During the previous year, During the previous year, the Company recognised gain Synergy gain of income tax on account of merger of wholly owned subsidiary i.e. Sterlite Power Grid ventures Limited. The Company had also received dividend from its wholly owned subsidiary in Brazil which led to increase net profits after tax for the previous year. Since there are no such tax gain and dividend income, this has led to decrease in net profits after tax for the current year.
Return on investment	Return = Interest income on bank deposits + Gain (loss) on sale of investments + Dividend income on investments	Investment = Investments (excluding investments in subsidiaries, associates and joint ventures) + Deposits with banks	7%	11%	-29.99%	The reduction in return on investment is majorly because, during the previous year, the Company had received dividend from its wholly owned subsidiary in Brazil which led to return on investment for the previous year. Since there is no such dividend income, this has led to decrease in return on investment in current year for the current year.
